Dedication of the Hebrew Temple. The event in this city yesterday was the dedication of the magnificant new Hebrew Temple, at the corner of Sixth and Broadway, and much of our space this morning is occupied with a report of the proceedings on the interesting occasion. The splendid building is a monument to the liberality of the Hebrews of this city, which done them infants excell of this city, which does them infinite eredit or the city, when does been hannes event.
One of the largest assembiles we have ever
seen in Louisville was present, all of the dignataries of the city, and the principal representatives of the several professions being included. Altogether the dedication was a
grand event and a aplendid success.

gar General Frank Wolford is at present in the city on business. After a short visit to his old home in Casey county he will go to Indiana, where he will make a number of cooks. After siling his appointments in at State the gallant and eloquent gentleman ill favor the citizens of Louisville with a cook. They are also anxious to hear him, and will greet him with a rousing crowd.

marchants, and dealers generally, may expect the Louisvilles, pushing them one score abond or the clay during the State fair, which commences next Tuesday, and they will probably find it largely to their interest to use freely during that time the advertising columns of the Country, which is daily read by four times us many people as ony other paper in the State.

The Cuttle Disease.

We publish this morning an important proc-ismation from Gov. J. W. Stevenson, forbid-ding the importation of eatile into this State for the next sixty days from States where the

cattle disease is prevalent. It will be seen by his card that in answer to the call made upon him, Dr E. D. Standiford announces himself as a candidate

BOYD WINCHESTER,

New Version of Redical Ponce. The tone of the Radical press on the subject peace is highly significant. The Tribune postally, asks, "Which is the way to peace?" and asswers its own question by asserting tint, should General Grant be chosen President, "every one knows that the land will eve rest for at least four years from the fourth

March next."
The Tribune's reply is very similar to that of the Mormon Elder who was discussing his fulth with Archbishop Hughes: "You doubt-less think," said the Elder, "that your re-Elder, "is precisely the difference between us. You think you are right, and we know that our faith is the true one." And so it is with Mr. Greeky and the Radicals. Logic can have so place in shaping their councils. They are deaf to appeale made to their reason. Like the Mormon elder, they assume their position and "knee" that it is correct. They can sesign no just reason for their faith, bal they are not the less disposed to endgel averybody . They will argue, like the wolf with tion. They insist that there is rebellion and war in the land, and, when the charge is dealed, they foam at the mouth with rage, and send their despote and their military commissions and martial law through the land to prove the existence of war. In the nact breath they will awear that everything is ogutes brotherly love; that it would no harm a "sucking dove;" and then it points its bayonets at your breest, and consigns you, by virtue of military decrees, to its constitues bastiles. If a protest is raised against its con-duct as inconsistent with its professions, Radi-calism raises a new clamor, and vows that you are "distoyal and a traitor" for doubting its professions, and that you mean to get up a war, and that unless the Radicals are permitted

latter form of the Radical threats. It is not confined to the New York Tribune and other adiesl papers. It is the language of many their centers and leading men. It is hear the does not hesitate to aver that the Radicals mean, at all hazards, to hold on to the Government. They are so bent upon war that their hearts overflow with military ardor, and they charge upon others what they design thomselves. They know well that the Democratic party is the true party of peace. They concode as much when they acknowledge that if Gon. Grant is elected by a vote of the people, there will be no opposition to his manguration by the Democratic party. The Tribune even says that it "knows" there will be peace in that event, which is equivalent to knowing that the Democratic party means to abide by the verdict of the people, as an ounced through a legal election.

If this is the case, and the Tribune pro

" that it will be so, what does it and what do the Radicals mean by all their talk about war? If the Democrate do not propose to make war, and the Tribune "know" they not intend war, who then proposes to dis when it denounces war in the event of Mr. Seymour's election, and its voice ar cords with that of the beaders of the whole Radical party. They thus virtually declare they will not around to the verdict of the peo-ple if it should be pronounced against them. end that they mean to employ their old weapon, the bayonet, to course the majority into a sub-amission to a Radical minority led by the trium virste of Butler, Bingham and Snumer, with Tribune as the expounder of their decrees. As we remarked, the Tribune is not alone

the defring the voice of the people. Gov. Morton, in his reception speach at indisanspolis, also plainly intimated, in the same manner the Tribuse has done, the purpose of the lind-icals to inangurate war in the event of the election of Mr. Seymour. Their object is plain. They charge a hostile purpose upon others when they meditate it themselves; but their design to resist the will of the people is so plain that they acknowledge their own guilt in the very deannelations they make of the innocent. If Gen. Grant be elected the Tribune "knows there will be peace," be-cause the Democracy will submit to the legiti mately expressed will of the people. But if Mr. Saymour be elected the Tribune "knows" there will be war, because the Radicals will de-

the fact that the State which it end avon thus to makign and misrepressed furnished over 75,000 soldiers to the Federal army at the time of the nation's screet need. The Journal claims or asserts that the un-

precedented majority given Gov. Stevenson in the late election was given by "ou rebel sol-diers, cowardly guerrillas, and rebels of the war period." Pray, what does it suppose has become of the arrivers of the 75,000 Union volunteers? The total vote cast being only 140,146, these Union veterans must nece have cast a large proportion of it, and the Journal can hardly expect them to feel mea-pressibly grateful to the party that documen them as "ex-rebels and guerrillas,"

Can the Radional press on the other aid of the river be reduced to such extremities to prop their falling fortance as to re-ort to will-ful and deliberate minergress station of Ken tacky's Union soldlers?
